- Helped students understand concepts in Frontend Web Development.

HIGHLIGHTED PROJECTS AND CERTIFICATIONS

Certifications

- CompTIA certifications: ITF+, A+, Network+, Security+, Linux+.
- Short Term Certificates: Computer Technician, Server Administration, Cybersecurity Essentials, CCNA Preparation.

C++ - Tower Defense Game using SFML (called Fish)

- Used the SFML library to manage sprites, textures, music, and events to the screen.
- Loaded path and enemy information for a stage from txt files.
- Included several enemies (fish) and 3 towers (cats).
- The rounds can be customized by editing the stage txt files.

C++ - Wt Risk Tracking System – Senior Capstone

- Used the Wt library to create a website and connect to a database to track and manage risks.
- Featured a login screen and 3 types of user accounts with different authorization.
- Worked on a team of 14 people.
- The project was incomplete due to time constraints, but an MVP was created.

Python - AI - Kirby's Dream Land Bot Creator

- Used many libraries such as sklearn, gymretro, and tkinter.
- Used logistic and linear regression to predict moves Kirby should make based on screen data.
- A basic GUI was used.
- The project plays the game through the first screen (before the first mini-boss).

These projects and more can be found on my portfolio at <https://lucashasting.github.io/Portfolio/>
